

SCHOOL ASSOCIATION FOR SPECIAL EDUCATION IN DUPAGE COUNTY

***Response to Intervention/Problem Solving
Workshop Series
2008-2009***

**Overview and Assessment of Need: RtI & Problem Solving at the
Middle School/High School**

Date: August 13, 2008 Time: 8:30 am-3:00pm Location: NIU Naperville Campus

Presenters: Dr. Mark Shinn & Dr. Madi Phillips

Administrators and team members who plan to attend RtI workshops in the series designed for the Middle School/High School level should attend this workshop as a prerequisite to all other workshops. It is recommended that an administrator accompany team members.

In the overview portion of this workshop participants will learn the foundations of Response to Intervention within a Three Tier Problem Solving Model designed for middle school and high school settings. Teams will be asked to bring a number of items including general education student data, the school improvement plan and sample IEP's in order to complete an assessment of need specifically designed for the middle school and high school levels. Teams will complete the assessment with assistance and plan for the next steps, including prioritizing issues and determining specific actions for the year.

The first secondary level coaches' and networking meeting will take place at the conclusion of the presentation. The meeting is scheduled from 2:00 - 3:30pm.

**For further information on other RtI/Problem Solving Workshops visit the
SASED Professional Development web page at www.sased.org**

Staff not employed within SASED member districts are invited to register
