

## Consent for Digital Communication

It is very important to be aware that e-mail, FAX and cell phone, as well as cordless phone communication can be accessed by unauthorized people and hence, the privacy and confidentiality of such communications can be compromised. E-mails, in particular, are vulnerable to such unauthorized access due to the fact that servers have unlimited and direct access to all e-mails that go through them.

I understand and acknowledge that privacy and confidentiality cannot be guaranteed or secured when using digital forms of communication such as cell phones, texting, email, and instant messaging and information sent by FAX.

\_\_\_\_\_ I give consent for SASSED personnel to communicate via email, cell phone, and FAX, etc. about medical, educational, behavioral, and other information pertaining to my child, including copies of all written material that will be considered at an IEP meeting. I may rescind this consent at any time by contacting SASSED's Transition/Project Search Program in writing and informing them that I revoke my consent.

\_\_\_\_\_ I do NOT give consent for SASSED personnel to communicate via email, cell phone, and FAX, etc. about medical, educational, behavioral, and other information pertaining to my child.
