

Sunscreen Application

During warmer months at the beginning and end of the school year, students will spend more time outside. If you would like for us to apply sunscreen to your child, please provide us with an unexpired bottle of sunscreen, labeled with your child's first and last name.

As with any topical medication or cream, the first application of any brand of sunscreen should be applied at home in order to evaluate your child's possible allergic reaction to that product.

I give SASED staff permission to apply the sunscreen that I have provided for my child. I have previously applied this sunscreen to my child without concern. I understand that while the SASED staff will take all reasonable precautions to ensure my child will not get sunburn; SASED cannot guarantee that this will not happen under certain circumstances.
